Thanks Mindy!

We are covering stressor-response analysis in Idaho (Chris Mebane, USGS); mechanistic modeling (one HQ presentation and your presentation); combined criteria approaches (HQ presentation and Aron Borok, ODEQ); and then a data analysis exercise with Mary Anne Nelson, Idaho DEQ, and some contract support to analyze a dataset that Idaho has been putting together to translate a narrative nutrient criterion.

Other presentations after that include Denise Elston, ADEC, on their nutrient control program, Susan Braley or one of her staff on Washington's nutrient control strategy, and Dan Wise, USGS on the new sparrow model results for predicting loading.

I hope that helps! It will be mostly technical staff and managers, so we are moving from focusing mostly on techniques and challenges for developing criteria to implementation of nutrient controls more broadly.

See you soon, Rochelle

Done – can you let me know who is speaking on what that day? I just want to tailor my presentation and know what else is being covered.

Thanks,  
Mindy

Hi Mindy,

Thanks so much for presenting at the Region 10 Nutrients Workshop, the Nutrients Roadshow!

We are asking all presenters to register for the workshop – here are some instructions:

Go to: <http://www.tetrattech-ffx.com/nnc2014/r10/>

(either click on the above link, or copy and paste it into your browser window)

When the prompt comes up, please put in the following:

Username: (b) (6)

Password: (b) (6)

You are currently scheduled for a 15-minute presentation plus 5 extra minutes for questions on Day 2 (2/26) of the workshop in the “Mechanistic Models” session. Mindy, if you feel your presentation would work better in the “Implementation” session, please let me know. Session information is available on the registration website. Please send me your powerpoint slides and/or other materials **by February 21<sup>st</sup>**, in order to have them ready and loaded the day of your presentation.

Thanks so much, and I look forward to seeing you at the end of the month!

All the best, Rochelle
